Summary

Salesforce Developer with practical expertise in designing and customizing Salesforce applications through Apex, LWC, SOQL, Flows, and Salesforce APIs. Experienced in crafting scalable solutions, business process automation, and working with cross-functional teams for successful Salesforce development projects. Interested in collaborating on meaningful development work in fast-paced environments.

Skills

Programming & Querying: Apex, SOQL, JavaScript, Lightning Web Components, HTML, CSS, XML

Technical Skills: Salesforce Platform, Batch Apex, Queueable Apex, REST APIs, Profiles, Permission Sets, Sharing Rules

Development Tools: Salesforce.com, Data Loader, VS Code, GitHub

Soft Skills: Communication, Team Collaboration

Experience

Salesforce Developer Intern

NOV 2025 – June 2026

Salesforce Developer (Remote)

Tools Used: SFDC, Apex, LWC, VS Code

- Engineered 15+ Bulkified Triggers, Flows, and validation rules to automate business processes and improve operational efficiency.
- Created 12+ Lightning Web Components (LWC) and Apex classes to successfully implement complex business requirements within Salesforce.
- Developed Apex test classes achieving over 90% code coverage for successful deployments.
- Integrated 10+ Lightning Web Components with Apex controllers using APIs for efficient data retrieval and real-time processing.
- Resolved 50+ bugs and enhanced existing Salesforce applications, improving system reliability by 25% and overall user experience.

Projects

ABC Real Estate | Salesforce, Apex, LWC

March 2026 – April 2026

- Designed and developed a Commission Management System using Apex, LWC, SOQL, and Flows to automate commission calculation, approval workflows, and property claim management for 100+ transactions monthly.
- Programmed end-to-end processes for property claims, commission calculations, and approvals for a real estate firm, streamlining operations for 50+ users.
- Developed 8+ responsive Lightning Web Components for Claim Properties and Commission Approval.
- Added pagination with multi-record selection across multiple pages and enabled real-time record count, improving UX and operational efficiency by 40%.

Adecco Recruitment | Salesforce, Apex Trigger, SOQL

February 2026 – March 2026

- Built Salesforce-based solutions for handling Adecco's candidate lifecycles, delivering functionality for customer management, requisition creation, recruitment, and placement processes for 500+ candidates and 50+ recruiters.
- Systematized the candidate matching process using Salesforce Flows based on skills and location, improving accuracy for 200+ candidates.
- Automated requisition closure through Salesforce Flows, reducing manual effort by 35%.

Learning & Professional Development

- Earned 60+ Salesforce Trailhead badges.
- Built 4+ end-to-end Salesforce projects using Apex, LWC, Flows, and REST APIs.
- Hands-on experience with Salesforce customization and automation.
